

for fixing thin insulation

Reference: FITAB

hammer-in

for thin insulation in window panels

Dessin technique

Description longue (Informations techniques)

Base material: A - Concrete

Base material: D - LIGHTWEIGHT CONCRETE

Base material: B - SOLID MASONARY

Material: Nylon

Type: Insulation Anchor

Insulation type: Rigid

Insulation plug: Hammer fixing

Insulation thickness min: 40

Insulation thickness max.: 40

WASHER DIAMETER: 35mm
