

for fixing flexible insulation under cladding

Reference: FI08-NOIR

For fixing flexible insulation which is protected by cladding.

Dessin technique

Description longue (Informations techniques)

Base material: A - Concrete

Base material: E - Aerated concrete

Base material: B - SOLID MASONARY

Material: Nylon

Type: Insulation Anchor

Insulation type: Flexible

Insulation plug: Hammer fixing

Insulation thickness min: 35

Insulation thickness max.: 210

WASHER DIAMETER: 90mm
